## MIRROR

## Barrisol® Mirror

reflection

## An exceptional reflection

Barrisol® Mirror, the fruit of Barrisol®'s research and development endeavors, is Barrisol®'s latest addition to an already exhaustive range of products and finishes.

With a high power of reflection, this amazing sheet merges the reflective capacity of a mirror, the manageability of the sheet and ease of installation.

Designed to change the decoration without the need to modify the space, Barrisol® Mirror sheets decorate and delimitate spaces, multiply smaller volumes, bringing elegance and design to the rooms they are applied to.

When suspended to the ceiling, Barrisol® Mirror, with its reflections, brings subtle or more forceful touches of light and modernity.

Respect

Safety and quality are Barrisol® top priorities, in compliance with applicable laws and standards.

Like all Barrisol® sheets, Barrisol® Mirror sheets comply with the European CE norm, are produced with plasticizers guaranteed with no phthalate, no cadmium, no mercury and no arsenic.

Barrisol® Mirror sheets are fire rated following the European and international standards (BS2-D0). All fire and toxicity tests confirm that Barrisol® Mirror sheets meet public and home spaces requirements.

Barrisol® Stretched Ceilings are rated A+ (best result) for indoor air quality, in accordance with current legislation.

## Surprise !

The « Gold » and « Silver » finishes of Barrisol® Mirror sheets give space a unique character.

The silvery Barrisol® Mirror sheet blends into the background like a glass mirror. Resolutely modern, the silvery finish is impressive and displays a beautiful brightness. This innovative material widens spaces, conveying a contemporary and uncluttered touch to decorations.

Reminiscent of ancient Egypt's bronze mirrors and of the sophistication of neo-classical decorations, the golden finish rekindles spaces with elegance and brilliance. The delicate golden touch combines elegance with the material's high technicity.

Customize

The Barrisol® Mirror range is extremely light (292g/sqm). These new sheets are specifically designed to be fixed on aluminum frames and come in many shapes: rectangles, circles, triangles or squares.

Mirror touches bring light while large intense frames deepen the space, making Barrisol® Mirror sheets a perfect fit for all universes and enhancing inner decorations.

Barrisol® Mirror sheets are works of art, giving free reign to imagination, from classical to bold designs.
